

ACKNOWLEDGMENTS

The P.O.MED project "CypFire", 2g-MED090-070 provided financial support for this manual and is responsible for its contents.

We thank Dr. Alberto Panconesi (Institute of Plant Protection, CNR Italy) for helpful discussions and suggestions. He also allowed us to utilise the pictures taken from his book "Il cipresso dalla leggenda al futuro".

We thank the Giorgio Tesi Group for the hospitality in its nurseries located in Pistoia (Italy) and finally with great pleasure the collaborators of the IPP-CNR (V. Di Lonardo, A. Romagnoli and G. Torraca) for their decisive collaboration in the organisation of the Training School and in the setting up the publication of this Manual.
